

About Your Insurance

There are two types of health insurance that will help pay for your eye care services and products. You may have both and our office accepts both:

1. Vision Care Plans (such as Davis, VSP, and EyeMed)
 2. Medical Insurance (Such as BlueCross BlueShield and Cigna)
- Vision care plans only cover routine vision exams along with eyeglasses and/or contact lenses. Vision plans only cover a basic screening for eye disease; they do not cover diagnosis, management, or treatment of eye diseases.
 - Medical insurance must be used if you have any eye health problem (like dry eye or allergies) or systemic health problems that has ocular implications (such as diabetes or high blood pressure). Your doctor will determine if these conditions apply to you, but some are determined by your case history.
 - If you have both types of insurance plans, it may be necessary for us to bill some services to one plan and other services to the other. We will use coordination of benefits to do this properly and to minimize your out of pocket expense.
 - We will bill your insurance plan for services if we are a participating provider for that plan. We will try to obtain advanced authorization of your insurance benefits so we can tell you what is covered. If some fees are not paid by your plan, we will bill you for any unpaid deductibles, co-pays/co-insurance, or non-covered services as allowed by the insurance contract.

I have read and agree with these policies
